

10 *Inventory of Private Ownership Recreation Sites*

Privately-owned recreation sites and facilities are important sources of recreation, particularly for certain facility-based and specialized recreational pursuits. The following inventory is based on research conducted in 2006 by the Pinellas County Planning Department. **Table 13** inventories private recreation sites, grouped by planning sector. The listed sites are owned by private, commercial or non-profit entities and are available to the public for purposes of recreational use. For ease of comparison, **Table 14** summarizes the acreage of privately owned recreational sites in the County by planning sector (please see **Figure 14** for planning sector locations). **Table 15** separately lists golf courses and country clubs, which are given particular emphasis because of their significant contribution to open space.

**TABLE 13
PRIVATE RECREATION SITES IN PINELLAS COUNTY**

PRIVATELY-OWNED RECREATIONAL SITE	ACREAGE
