

**SWM STRATEGY 1.2.1.4:** Promote the reduction and/or elimination of point source pollutant loadings by:

- » Requiring alternative reuse and disposal options;
- » Enforcing illicit discharge regulations; and
- » Implementing SWPPP for both County and private (re)development.

**SWM POLICY 1.2.2:** Meet or exceed the requirements of the Clean Water Act to protect and enhance the quality of the County's surface waters.

**SWM STRATEGY 1.2.2.1:** Implement Total Maximum Daily Loads (TMDL) monitoring and implementation plans to achieve the assigned TMDL on the schedule approved by FDEP.

**SWM STRATEGY 1.2.2.2:** Utilize the Land Development Code to include stormwater and surface water treatment regulations to meet TMDL requirements and improve water quality.

**SWM STRATEGY 1.2.2.3:** Implement TMDL monitoring and implementation plans in cooperation with applicable municipalities.

**SWM STRATEGY 1.2.2.4:** Implement regulations requiring O&M plans for private stormwater systems that are attached to the property deed.

**SWM POLICY 1.2.3:** Participate in the Pinellas County Wastewater Stormwater Partnership Task Force, and Technical Working Group to identify strategies to:

- » Increase wastewater treatment capacity as appropriate;
- » Increase wastewater storage capacity as appropriate; and
- » Reduce inflow and infiltration of stormwater and groundwater into the sanitary sewer system.

**SWM POLICY 1.2.4:** Coordinate with Southwest Florida Water Management District (SWFWMD), the FDEP and the Tampa Bay Estuary Program (TBEP) in protecting, restoring or enhancing natural habitats, estuaries and natural systems.

**SWM STRATEGY 1.2.4.1:** Ensure consistency with ~~SWFWMD's Comprehensive Watershed Management Plan (CWMP) for the Tampa Bay/Anclote watershed and TBEP's Comprehensive Conservation and Management Plan (CCMP). the Comprehensive Conservation and Management Plans (CCMP) for Tampa Bay and Clearwater Harbor-St Joseph Sound.~~

**SWM STRATEGY 1.2.4.2:** Participate in revegetation projects for tidal flats, tidal streams, mangrove forests, seagrass beds, salt marshes, salt barrens, freshwater wetlands and uplands.

**SWM STRATEGY 1.2.4.3:** Collaborate with SWFWMD and FDEP in the development and implementation of management plans for restorative and mitigative programs.

**SWM STRATEGY 1.2.4.4:** Partner with SWFWMD in the demonstration of low impact development and other new and innovative stormwater management techniques.

**SWM STRATEGY 1.2.4.5:** Collaborate with SWFWMD in the development and implementation of surface water improvement and management plans (SWIM).

**SWM STRATEGY 1.2.4.6:** Identify and apply watershed-specific regulations and programs to meet pollutant loading targets established by an adopted watershed management plan or the Comprehensive Conservation and Management Plans (CCMP) for Tampa Bay and Clearwater Harbor-St. Joseph Sound, and/or to meet the purpose and intent of Total Maximum Daily Load (TMDL) requirements.
